

The Vamos for Schools Partner Charter

Our Partnership Principles and Commitment

Welcome

Thank you for considering a partnership with Vamos for Schools.

Whether you represent a school, an education agent or an academic consultant, our aim is simple: to help you provide outstanding Spanish education with confidence.

This charter explains how we work, what you can expect from us and the principles that underpin every partnership we build.

Why Partner with Vamos?

We believe every young person deserves access to outstanding Spanish education regardless of where they live or the resources available within their school.

Our role is to remove barriers, strengthen existing provision and become a dependable educational partner. We place education before technology, relationships before transactions and long-term success before short-term gains.

What Makes Vamos Different?

Outstanding teachers, carefully structured learning programmes and technology that supports rather than replaces education form the foundation of our approach.

Each element has a purpose. Together they create a learning experience that gives schools confidence, supports teachers and enables learners to thrive.

Building Successful Partnerships

Every partnership begins by understanding the school's needs.

Some partners require complete course delivery. Others need revision support, enrichment programmes or additional teaching capacity. Our approach is deliberately flexible because no two schools are the same.

We measure success by the strength of the relationship we build together.

Working Together

Once a partnership begins, our commitment continues.

Partners can expect clear communication, dependable operational support, transparent reporting, structured learner feedback and an online portal that supports teachers, learners and parents throughout the educational journey.

Our Commitment

- We believe education should create opportunity.
- We believe partnerships should be built on trust.
- We believe communication should be clear, honest and supportive.
- Most importantly, we believe every learner deserves outstanding teaching and every partner deserves an organisation they can rely upon.
- We hope this charter has given you confidence not only in our courses, but in the people behind them.

¡Vamos!
